Institutional Distinctiveness: 2022-23

In order to safeguard the interest of first generation learners and students hailing from financially backward families and socio-economically disadvantaged groups like tribal community and women in special in a primarily rural area, our college promotes awareness regarding the efficacy of higher education encompassing skill enhancement. We have adopted policies that employ both conventional teaching-learning methods and digital learning through the official Facebook page, WhatsApp groups; Official YouTube channels, G-Suite LMS, online class through G-Meet. Scholarships are regularly awarded to students to encourage their potential for learning. Also, the Career development programme through Counseling Cell and Placement Cell are also included. The institution has made an effort to impart transferable and life skills to the students and enhance their understanding of the expectations of the industry by introduction of 26 Value-Added Courses, Add-on Courses and Certificate Skill Development Courses for Promotion of Innovation Ecosystem. Training courses on Tailoring and Beautician, Mushroom Cultivation, LED bulb making have been organized by the Skill Hub and Innovation Hub to enhance skill of students, especially female students/local women and to make them self-dependent. Several awareness programmes and academic activities are organized regularly at campus, neighboring school and villages to uplift students and local people.
