Policy for making Narajole Raj College campus Green, sustainable and eco-friendly-

Date-16.11.2019

The Green Club Committee of Narajole Raj College strives to promote sustainability on daily basis. It aims to reduce environmental impact by promoting eco-friendly practices. This includes conservation of resources like energy and water, waste management, green transportation, biodiversity conservation, and sustainable food options. The committee educates and engages the campus community in environmental awareness, advocates some sustainable policies, and collaborates with local stakeholders, monitoring progress, hosting green events. Ultimately, the goal is to create a greener, more sustainable campus that serves as a model for responsible eco-friendly educational institution in Paschim Medinipur district.

On 17th November, 2019, the Green Club Committee resolved some proposal for the planning of next five years' i.e,(2019-2020 to 2023-2024) and send it to the Governing Body for their kind permission.

The matter to be focused for the next five years are considered as under-

1. Inauguration of E-Waste Management system
2. Renovation of Rain Water harvesting plant
3. Installation of additional Solar panels
4. Modification of Green Campus
5. Making at least two Chemical Waste pits near chemistry laboratory
6. Installation of Air Quality Analyzer and Sound Quality Analyzer
7. Construction of Pedestral friendly pathway in different areas of campus for beautification and making the campus more contemporaneous
8. Making the campus strictly plastic free
9. Observing of no vehicle day in the campus as much as possible at least strictly once in a week.
10. Making the arboretum more and more rich

Circular of Green Club (2019-2020)-

Circular no.1 **Date-9.11.2019**

Green Club, Narajole Raj College organized a general body meeting with all members on 9.11.2019 and resolved some issues to maintain the Green and eco-friendly campus along with some modifications according to our green policy. These are as follows-

i) Teachers specially the members of Green Club train up the students about different greenery thinking and its applications not only inside the campus but also outside where ever he/she goes in future.

ii) Students must be trained with having clear conceptions about disposal of wastes and its proper management.

iii) Students will be engaged through their group leaders in maintaining our Charak Udyan and other parts of Arboretum.

iv) Students should be engaged, either through NSS (unit I & II) or through Green Club or Extension Services sub-Committee of our college, apart from their regular curricular activities, as a part of society to do something better for them. *Viz.,* plantation programme in local areas and to be a part of social forestry in aranya saptaha in every year, medicinal values, and other uses documentation of local plants from age-old persons, conservation of local plants, campus cleaning and local area cleaning that means they will be engaged in different community service.

v) It is also decided to spread out the consciousness about plastic free campus and sustainable uses of plastics among the students specially the new comers our college will observe "World Plastic Free Day,i.e., 3rd July" in every year.

vi) Depending on the situations, the committee decided to clean the weeds from gardens sustainably and make the campus and adjoining areas plastic free, *Parthenium* plant free jointly by students and teachers to encourage them.

vii) All the concerned are requested to cooperate for the success of above plans properly in due time.

With warm greetings,

CIRCULAR OF GREEN CLUB (2020-2021)

Circular no. 2 **Date- 4.4.2020**

The whole session was falls under Covid-19 pandemic. The college was remained closed. All the college activities runned through online platform Google meet. Green Club, Narajole Raj College organized a general body meeting with all members on 04.04.2020(Saturday) through online google meet and resolved some issues to maintain the greenery broad spectrum thinking in this adverse pandemic situation.

i) As our VIth semester students will face first online final exam in pandemic situation, our committee members have decided to take online different rehearsal training in the beginning days through their departmental teachers as if they could be accustomed with newly learned Google meet platform.

ii) To overcome online exam fear specially in pandemic situation, irrespective of own college, our college will arrange a general psychiatric online counselling Programme for VIth semester students belongs to any colleges. Dr. Asis Acharya, renowned psychiatrist of West Bengal would be requested to be a resource person for that programme.

iii) Not to confined with pandemic fear, our committee members want to spread the information to society through our society backbone i.e. students, to comes out with truth of the microbiological all about view of Corona virus (specially Covid-19), scientific and medical precautions for it and at last but not the least the impact of the pandemic on environment. For this, in the pandemic they will arrange a national level webinar to students and faculties of any academic body. It is decided that in this national level webinar the resource persons would invited-

i) Dr. Pradeep Kumar Das Mohapatra (Associate Professor of Microbiology, Raiganj University, West Bengal),

ii) Dr. Kalimujjaman Molla (Doctor, Medinipur Medical College & Hospital, West Bengal),

2021-2022 GREEN CAMPUS CIRCULAR-

Circular no.3 **Date- 15.11.2021**

Till 15th November,2021 the college academic and administrative activities as per Govt. rules was through online mode. College will open on 16.112021.

i) Our Green Club committee decided through online meeting to counsel students and all faculties by a consultant physician as if almost one and half years after they could easily enter their own college campus with maintaining proper Covid protocol. For this counselling irrespective of our own college any academic institutions will be welcomed. Dr. Kalimujjaman Molla (a renowned doctor of Medinipur Medical College & Hospital) will again invite as resource person.

ii) After opening of college, our Green Club Committee decided to do some online workshops/ awareness programmes as it is assumed that attendance of students will not satisfactory in the college in the beginning days due to Covid fearness. So that, the committee members decided to arrange an online workshop on "Joint Forest Management". For this, Dr. Tridib Kumar Sahoo (Assistant Professor, Tamralipta Mahavidlaya) would invite as resource person.

iii) In broad spectrum thinking about students specially girls of this age group, the committee decided to do an online awareness programme cum workshop on 'Nutrition and its Importance in Life'. Here it is decided Mrs. Poulami Mandal, (renowned nutritionist of Midnapur, previously attached to Kolkata Peerless Hospital) would invite as resource person.

iv) The dates of online workshops will decide after discussion with resource persons at the earliest.

V) Apart from these, after opening of college, students specially new comers will be trained up about proper waste disposal and its management , limited use of plastics, maintain our campus as plastic free, limited use of fuels, use of e-vehicles, bi-cycles etc.

VI) Proper maintenance of our previously installed solar panels, rain water harvesting plants.

NARAJOLE RAJ COLLEGE Estd.- 1966

Summary report of *Parthenium* eradication

When the college opened after lockdown during Covid pandemic, we observed our college campus and surrounding area were full of *Parthenium* as the college closed due to lockdown trespassers were limited in that locality which allowed the Parthenium to grow and polluted the entire atmosphere.

Rationale of the seminar- *Parthenium* is an exotic plant which was invaded in our country. The spores of *Parthenium* usually create respiratory trouble and skin allergy in human body. Therefore, the herb is injurious and this is why the eradication of the Parthenium programme had been taken.

Plan of work- We, the members of Green Club, have discussed the issue with the NSS (unit I and II), teachers and students of botany department. We decided to eradicate the herb *Parthenium* from our college campus and the surrounding area manually with the help of the said members under guidance of Mr.Pashupati Maity (gardener). We fixed the date on 29th June every year. We planned to purchase gloves, masks and head cap sufficiently for security of the members.

Schedule of the programme- We reached the college campus right at 10 am and considering the security aspect we wore gloves, caps and facial masks. After that all of us started the job by identifying the herb Parthenium and eradicate them. All of us including students involved in the job with great enthusiasm.We finished the job around 2pm.

Outcome of the Seminar- We observed that the locality was abundantly covered with parthenium plant which is dangerous for human being and grazing animals. After the programme our college campus and surrounding area became almost Parthenium free.

Students'feedback- Students were very happy as they observed the event as a social work. They were enthusiastic asking about *Parthenium* bound diseases.

SIGNIFICANCE OF MANAGEMENT OF VARIOUS TYPES OF DEGRADABLE AND NONDEGRADABLE WASTE -A REPORT DELIVERED TO STUDENTS

Waste management or waste disposal includes the processes and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment, and disposal of waste, together with monitoring and regulation of the waste management process and waste-related laws, technologies, and economic mechanisms.

Waste can be solid, liquid, or gaseous and each type have different methods of disposal and management. Waste management deals with all types of waste, including industrial, biological, household, municipal, organic, biomedical, radioactive wastes. In some cases, waste can possess a threat to human health. Health issues are associated with the entire process of waste management. Health issues can also arise indirectly or directly: directly through the handling of solid waste, and indirectly through the consumption of water, soil, and food. Waste is produced by human activity, for example, the extraction and processing of raw materials. Waste management is intended to reduce the adverse effects of waste on human health, the environment, planetary resources, and aesthetics.

The aim of waste management is to reduce the dangerous effects of such waste on the environment and human health. One of the ways to put that plan into action is through the 3 ways of waste management — Reduce, Reuse, Recycle.

The features of red dustbins are:

- These specific trash cans are used to dispose of non-biodegradable rubbish.
- Because these wastes cannot be recycled, red trash cans are also known as rejecting trash cans.
- For the collection of bio-medical wastes such as needles, tissues, sanitary napkins, etc.
- These wastes, if not handled and disposed off inappropriately, might result in serious infections including Hepatitis B, HIV, and Hepatitis C, treatment of these wastes is important.
- Through the use of contaminated needles, they can be passed from one person to another.
- You can use these trash cans to dispose off both hazardous and non-hazardous material. Since the waste materials cannot be reprocessed, burning them is the only option to destroy these wastes.

Green Dustbins

The green dustbins and their features are:

- Wet and biodegradable garbage is treated using these types of trash cans.
- They are treated as organic bins.
- Fruits, vegetables, leftover food, garden garbage, rotten eggs, tea bags, etc. are typically included in these wastes. In order to cultivate vegetables, organic waste is utilized as manure in the gardens.
- The idea of organic farming is well-known nowadays.
- Farmers utilize these wastes to feed their livestock, create manure, and compost. This improves the soil's fertility.
- The optimum use of this trash prevents waste since it may be used to create compost.
- Therefore, it is essential to properly dispose off these wastes in order to protect animal life as well.

07/24
Principal
Estd - 1966

- Different sorts of trash require different types of dustbins; thus it is crucial for a person to know the difference.
- If there is too much of this waste, it becomes an issue and smells bad. Inhaling the bad odour might also cause lung issues in people.

Blue Dustbins

The features of blue dustbins are:

- These trash cans are used to handle dry, non-biodegradable rubbish.
- Dry garbage is disposed away in the blue dustbin. Dry is used here to denote literally dry.
- Dry papers should go in the blue trash can; moist papers should go in the green trash can.
- This trashcan can only accept dry rubbish that does not include any moist waste.
- All plastic wrappers and other trash made of plastic should also be disposed off in the blue trash can since they are non-biodegradable and cannot be broken down by microbes.
- Only the blue dustbin is intended for the disposal of all items, including glass, metals, damaged bulbs, lights, cans etc.

All these materials should be thrown separately because they are recyclable in nature and can be recycled while making new products which reduces the burden on the resources and also saves water and energy used in the manufacturing processes. Note that although the wastes such as TV, computers, computer accessories, etc. are dry in nature they are not to be thrown in the blue dustbin but handed over to the E-waste collection centres.

In our Institution, we have introduced in the session 2022-2023 the different coloured dustbins in different places within the campus and took initiative of awareness programmes among the students specially, new comers, tried heartily to make them acquainted about the proper uses of coloured dustbins and different processes of waste remediation including bioremediation. Hence forth, it is expected from our future generation that they would use the said coloured dustbins properly. Our college makes a MoU with Sarberia Gram Panchayat, which is effective from August,2023, that our non-degradable solid wastes have been taken time to time for proper disposition and remediation.

To keep pace with the times, we also have a moderate to huge amount of e-waste in every year in our institution. For e-waste disposal and its management our institution makes a MoU contract with Hulladek Recycling Private Limited in the session 2023-2024. It is decided in between us that they will take it out our e-waste from college campus for proper disposition. Toxic/hazardous/heavy metal wastes from the chemical laboratory are discharged into a 40-foot-deep underground double-layered pit within the campus. Waste materials like papers, and exercise books are collected and sold out to the vendors. Making of compost of Food waste and all kinds of organic waste is under process.

SERVICE AGREEMENT FOR E-WASTE MANAGEMENT

The Agreement is entered into at Kolkata on this **23 day of June 2023**.

23/06/2023
Principal
Narajole Raj College
P.O.- Narajole
Dist - Paschim Medinipur

By and Between

Hulladek Recycling Private Limited, a company incorporated under the Companies Act 2013 having its registered office at **4, D.L. Khan Road, Flat No. B-401, 4th Floor, Kolkata-700025, West Bengal, India** thereinafter referred to as First Party which expression shall unless contrary to and or repugnant to the context mean and include its successors representative and permitted assigns through **Mr. Nandan Mall** to enter into and sign this Agreement for and on behalf of the **First Party**.

AND

Narajole Raj College is an undergraduate & post graduate in Bengali & Sanskrit education, coeducational college situated in Narajole, Paschim Medinipur, West Bengal. It was established in 1966. It is affiliated with Vidyasagar University. Having its premises at **Vill, P.O. narajole, Kismat Narajole, West Bengal 721211**. There in after referred to as Second Party which expression shall unless contrary to and or repugnant to the context mean and include its successors representative and permitted assigns through **Dr. Basudev Mandal (Principal)** to enter into and sign this Agreement for and on behalf of the **Second Party.**

A) First Party is a registered Producer Responsibility Organization (PRO) vide the Registration No. **B-29016(12)/ (PRO)/18/WM-III Division** dated 12.11.2018 is authorized to undertake activities prescribed for Producer Responsibility Organizations.

B) The Second Party in compliance of E-Waste Management Rules, 2018 & 2022 desires to have services for management of their Electronic Waste except liquid waste.

Now, being that, this Agreement witnesses the following terms & conditions to be performed by both the parties to the Agreement.

1. The First Party has agreed to pick up, transport, carry and recycle/dispose of the E-Waste from the second party as per the norms prescribed by the Government Authorities from time to time.

2. The First Party has agreed to make available Utilization Certificate confirming that E-Waste provided by the Second party to the First Party has been recycled/ disposed of as per the norms prescribed by the Government Authorities within 60 days of the pick up the E-Waste.

    a. The second party will sign required documents to acknowledge that E-Waste has been handed over to the First Party.

3. This agreement will be in force for a period of **Three (03) years (23.06.2023 – 22.06.2026)** from the date of execution of this Agreement and can be renewed at the end of every period by mutual consent.

4. The second party is expected to generate minimum **200** kgs of E-Waste annually during each contractual term.

5. The Second Party has agreed to pay an 'agreement fee' of **₹ 9333 /- + 18%GST** annually to the first party as fee for the contract. Total of **₹ 28,000 /- + 18%GST** to be paid one time in advance for Three (03) years. **for 3 years of the E-waste Awareness Session included.** to be paid one time in advance

6. The First Party shall provide compliance documents such as **Form 2', 'Form 3' Query Letters from PCB or any other document** required as per government norms and shall file annual return for the respective year to the state pollution control board on a chargeable basis of per location, annually as records of e-waste movement from the premises of the second party to first party as and when applicable.

7. The Second Party will accumulate all E-Waste and inform to the first party once reasonable volume (**approx. 100 kgs minimum**) has accumulated. The pickups confirmed by the Second Party will be carried out on a priority basis within Five days from the date of request.

8. The Second party has agreed to handover the E-Waste items, the details of which are mentioned here below to the first party on "as is where is basis". The first party will dispose off such equipment and specifically agreed that they will charge the second party.

9. The Second party has agreed to handover the E-Waste, the details of which are mentioned here below to the first party on "as is where is basis".

    a. The first party will dispose off such equipment and specifically agreed that they will charge the second party towards the disposal of E-Waste as shown in ANNEXURE 2.

10. **The first party will pay in case of the items in ANNEXURE 1.** Any monies payable/receivable by the First party will be identified and settled by 7th of preceding month for the current month or the subsequent month/s as may be mutually decided from time to time. Applicable GST on such items will be additional.

11. The second party's responsibility will cease once electronic waste has been handed over to the First Party s per clause 3 above. Thereafter, no liability would accrue to the Second party on account of e-waste.

12. The renewal of the contract is chargeable at the end of the tenure/period and the documentation formalities shall be done by the First Party within 30-45 days prior to the date of agreement termination.

13. Records & data of the e-waste material procured will be maintained and transparently shared by the first party.

14. The Second Party has agreed that the general waste such as municipal solid Waste will not be included in the E-Waste.

15. It is clearly agreed that all the E-waste procured by or in the possession of the second party will be exclusively managed by the first party as per the terms and conditions specified above

16. The First Party shall conduct an '**Awareness Session**' at the premises of the 'Second Party' for generating awareness about the benefits and process of e-waste recycling.

    a. The second party then shall prepare and share with first party an **Awareness report** to be submitted the West Bengal pollution control board.

17. Either party can terminate this Agreement by giving 45 days written notice in advance to the other party citing reasonable grounds for such action. However, the other party is not entitled to claim any compensation for such premature termination if with reasonable sufficient grounds.

18. In case of failure to renew the same, will be a liable cause for Termination of the Agreement by the Second Party post which the balance advance amount for the year of 2024-26 shall be refunded by the First Party to the Second Party.

Sub: - Work order against Tender No-08/NRC/Tender/2024, Dated-22.01.2024

Sir,

The tender proceedings have been done in the presence of central tender committee as per the rules and regulations. The tender was scrutinized as per rules and regulations. The undersigned is pleased to inform you that you have been selected as the successful Bidder. I beg to request you to do renovate the electrical systems connected to diesel generator and science building of college with the supply of electrical materials.

Once all the work is completed according to the tender notice and your supplied quotation, you will receive the total payment through A/C Payee Cheque.

With Thanks,
